

Safer Schools

Presentation for Primary Pupils

Our school is launching the Safer Schools App

The Safer Schools app helps make you safer, both in the digital world and in the real world. It will help you with everything from passwords to social media, from bullying to your well-being.

So, let's take a look at what type of things are on the App.

The Safer Schools App teaches you all about these games and apps to make sure you stay safe while having fun!

MINECRAFT

Online Safety Centre

Need to know how to block or report someone or set the right privacy settings on Social Media? The Online Safety Centre on the App can show you how! This screen recording shows you how to block someone on TikTok.

Digital Safety

Want to learn more about the game and how to be safe when playing?
Simply check out the Digital Safety section of the App.
You can also learn even more about Social Media, Bullying and much much more in this section of the app.

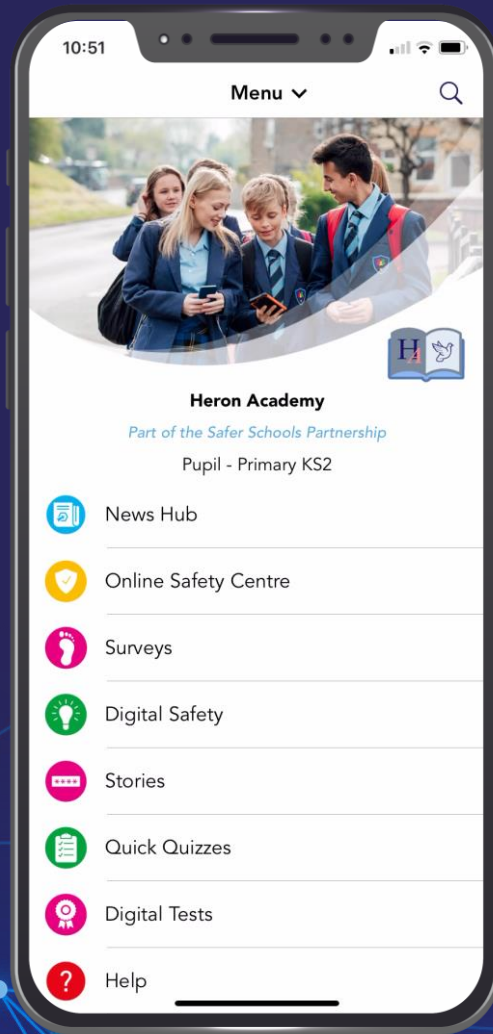

Another important thing you will learn about on the App is passwords. You can find this video about passwords in the “stories” section. This includes making sure your passwords are secure, so nobody else can get into your account. Let’s watch a short animation which teaches you all about passwords. You can watch this on the app too. What can you tell me about passwords after watching this? Ok, let’s move on to something else you can learn on the App.

Quick Quizzes

Think you know everything about being safe online? Try one of the quick quizzes to test your knowledge.

To learn even more about Passwords, Fortnite, TikTok, and how to be safe online, you need to use the Safer Schools App.

Download the App now!
